Plastic Storage / Bins / Wheelie Bins / 120L

120L Capacity Red Wheelie Bin

Model Number: WGR013

Key features

Mid-size 120L red wheelie bin manufactured for general waste and site-specific waste collection in residential, commercial and light industrial environments.

• AS4123-2024 compliant: Manufactured to meet relevant Australian Standard requirements for mobile waste and recycling containers, supporting safe handling, consistent identification and use with suitable collection systems.

• 120L mid-size capacity: Suitable for everyday general waste collection in homes, offices, apartment complexes, schools, commercial sites and light industrial areas.

• Red waste stream identification: Commonly used for general waste, landfill or site-specific waste streams when matched with correct signage and collection procedures.

• Weather-resistant HDPE construction: UV-stabilised high-density polyethylene helps resist fading, cracking, brittleness, heat, frost, decay and common chemicals during indoor or outdoor use.

• Reliable mobility: Fitted with two 200mm solid rubber wheels for smooth movement across concrete, paved surfaces, service areas and uneven ground.

• Compatible lifting design: Includes a reinforced lift bar for use with compatible council-style and commercial waste collection lifters.

• Custom hot stamping available: Add logos, waste stream labels, asset numbers or site identification to support ownership, sorting and bin tracking.

• 10 year manufacturer warranty: Backed by a 10 year manufacturer warranty for added confidence in long-term commercial use, conditions apply.

Specifications

Product Code	WGR013
Capacity (L)	120
Colour	Red
Material	HDPE
Material	HDPE
Barcode / GTIN	9.33124E+12
Wheel Diameter (mm)	200
Weight (kg)	8
