Safe Working Load (kg): 500

Platform Size (mm): 1280x630

Platform Height (mm): 330

Handle Height (mm): 1080

Wheel Type: -

Ideally suited to high turnover warehouses, stock transfers and fast moving industrial environments where constant transport of goods is required over varying distances, Richmond's Powered Platform Trolley can provide the solution. The powered drive and flat bed design allows the operator easy loading and unloading from the non slip deck. The combination of poly on nylon swivel steering castors and pneumatic drive wheels provides endless maneuverability and heavy duty use on a multiple of floor surfaces. Features include safety and emergency brakes, horn and easy to read LED battery meter display. This product is equipped with a full onboard charger for convenience.

24v 500watt motor.
