200mm Swing Type Jockey Wheel with Rebound Rubber Wheel, Height Adjustable between 445mm-710mm

Model Number: S8019

Key features

This jockey wheel is much easier to manoeuvre on concrete compared to regular black rubber models. The rebound rubber composition of the wheel allows for a lower rolling resistance, and has shock-absorbing qualities.

Diameter: 200mm

Width: 260mm

Wheel Type: Rebound Rubber

Static Load Capacity: 400kg (when at lowest setting on flat/level surface)

Raised Height: 710mm

Plate Dimensions: 191 x 140 x 5mm

Lowered Height: 445mm

Part Number: S8019

The s8019 is a swing type jockey wheel, ideal for use on caravans, campers, boat trailers and other trailers used for transporting goods for leisure or business.

Important Note: When moving equipment, best performance is achieved with jockey wheel being at a lowest position. Moving equipment with jockey wheel in a high position is not safe or advised. All load capacities are based on smooth concrete or asphalt surfaces.
