

Plastic Storage / Bins / Wheelie Bins / 360L

## 660L Capacity Green Wheelie Bin

Model Number: WGR042

### Key features

Large 660L green wheelie bin for organics, garden waste and site-specific waste collection in commercial, industrial, facility and multi-site environments.

- AS4123-2024 compliant: Meets relevant Australian Standard requirements for mobile waste and recycling containers, supporting safe handling, consistent identification and use with suitable collection systems.
- Large 660L capacity: Suitable for higher-volume organics, garden waste and site-specific waste collection across commercial, industrial, education, hospitality and facility-managed sites.

- Green waste stream identification: Commonly used for organics, garden waste or other separated waste streams when matched with correct signage and collection procedures.
- Weather-resistant HDPE construction: UV-stabilised high-density polyethylene helps resist fading, cracking, brittleness, heat, frost, decay and common chemicals during indoor or outdoor use.
- High-capacity site collection: Designed for shared waste areas, back-of-house zones, groundskeeping areas and facilities that generate larger waste volumes.
- Easy to handle: Large handles, a hinged lid and smooth interior make the bin practical to move, access, empty and clean.
- Custom hot stamping available: Add logos, waste stream labels, asset numbers or site identification to support ownership, sorting and bin tracking.

## Specifications

|                     |             |
|---------------------|-------------|
| Product Code        | WGR042      |
| Capacity (L)        | 660         |
| Colour              | Green       |
| Material            | HDPE        |
| Material            | HDPE        |
| Barcode / GTIN      | 9.33124E+12 |
| Wheel Diameter (mm) | 200         |
| Weight (kg)         | 40          |
