

Casters / Furniture & Bed Castors / Bed

Pack of 2 Bed Leg Castors 5/16 BSW With Brake

Model Number: BEDLEG002PK2

Key features

Suitable to most major bed manufacturers, Richmond's range of Bed Castors, Lockable Bed Castors and Glides provide an economical solution to reinvigorate the life of your bed base. Like all Richmond Castors this range is hard wearing, easily rolling over carpeted surfaces without pulling the pile. The solid nylon construction of both the glide and castors are also ideally suited to timber flooring. These castors are also an ideal addition to furniture and can provide additional clearance to allow storage under a TV or display unit. Available with two different thread options for simple installation.

As a rule of thumb, if a standard HB hex pencil slides into the threaded hole in the bed, it is 3/8".

Specifications

Product Code	BEDLEG002PK2
Part Type	Castor with Brake
Height (mm)	135
Thread Length (mm)	28
Thread Type	5/16" BSW
Maximum Load Capacity (kg)	40
