

Plastic Storage / Food Grade / Bread Crates

Bread Crate Grey

Model Number: BCR001RWC

Key features

Food grade HDPE bread crate designed for the hygienic transport, storage, and handling of breads, rolls, pastries, and other baked goods in commercial bakeries and food production facilities.

- Food grade HDPE construction: Manufactured from high density polyethylene for strength, hygiene, and easy cleaning.
- Stackable design: Stacks securely to maximise storage space while helping protect baked goods from compression damage.
- Ventilated base: Open base design promotes airflow to help maintain product freshness during storage and transport.
- Staggered base pattern: Reduces tearing of plastic sleeves while helping protect delicate product surfaces.

- Smooth, easy-clean surfaces: Supports fast wash-down and routine sanitising in food handling environments.
- Lightweight yet durable: Designed to withstand the demands of daily commercial bakery and food production use.
- Versatile food handling: Suitable for breads, rolls, pastries, confectionery, and other baked products.
