Richmond's wide range of caged platform trolleys are available in a number of configurations to suit any application. Whether you are using our multi-purpose cage trolleys for stock picking, laundry services or even in an industrial setting, we have the solution for you.

We offer both one tier and two tier models, with huge load capacities up to 500kgs. These mesh trolleys feature a slip resistant deck for safety and grey rubber wheels for easy and quiet steering. The chrome mesh sides are available with fold-down or even removable wire sides, making this range of trolleys one of the most versatile on the market.

Uses and industries for our caged platform trolleys:

- Order picking & stock picking
- Laundry services
- Factories and warehouses
- Office mail rooms
- Workshops
- Hospitality
- Medical
- Laboratories
- Libraries
- Retail

Our caged platform trolleys are everything you've come to expect from Richmond – they're high quality, reliable, and will last the test of time. With over 135 trolley models in our range and [rwc] years of industry experience, Richmond are your one stop material handling shop. Want to see one of our wire cage order picker trolleys? Visit one of our showrooms in Melbourne, Sydney (West Sydney and South Sydney), Brisbane, Adelaide, Perth or Darwin. You can also call us on 1300 474 246, or email sales@richmondau.com.
