Aluminium Easy Tilt Pneumatic Hand Trolley

Model Number: ETRAL2

Key features

Lightweight aluminium pneumatic hand trolley with an easy tilt mechanism for transporting cartons, boxes, and general stock in warehouses, delivery operations, and commercial environments.

• Easy tilt mechanism: Reduces the effort required to move loads by up to 50% during handling and transport.

• Lightweight aluminium construction: Provides corrosion resistance and easier manoeuvrability compared to steel alternatives.

• Puncture proof wheels: Eliminates downtime caused by flat tyres in demanding work environments.

• 200kg load capacity: Suitable for commercial and industrial stock handling applications.

• Custom toe plate options: Allows the trolley to be configured for different load types and applications.

• Heavy duty frame design: Built for regular warehouse, freight, and delivery use.

• Low maintenance operation: Aluminium frame and puncture proof wheels help reduce servicing requirements.

• Versatile handling solution: Suitable for warehouses, workshops, stockrooms, and transport operations.

Specifications

Product Code	ETRAL1
Maximum Load Capacity (kg)	200
Trolley Size (mm)	1280 x 380
Toe Plate Size (mm)	Custom
Wheel Type	Puncture Proof
Tyre Size	410 x 3.50 x 4
