

Narrow 6 Wheel Stock Platform Trolley Twin Handle | PGR400

Key features

Galvanised 6 wheel rocking trolley with twin platforms and wide single handle, designed for high capacity stock transport in warehouses and industrial environments.

- Galvanised steel construction: Corrosion resistant frame built for demanding commercial and industrial use.
- 6 wheel rocking design: Keeps centre wheels engaged with the floor for smoother movement and improved manoeuvrability.
- Twin platform configuration: Allows separation of goods across two levels for organised stock handling.
- Safe Working Load 500kg: Suitable for transporting heavy and bulky stock.

- Platform size 1140mm x 460mm: Wide platform provides increased load capacity and stability.
- Platform height 260mm: single level platform support efficient loading and stock separation.
- Handle height 950mm: Ergonomic handle height for controlled pushing and pulling.
- Wheel configuration: 125mm rebound rubber outer wheels with 200mm rubber tyred nylon centred wheels for stability and smooth rocking action.
