Wide 6 Wheel Stock Platform Trolley Twin Handle | PGR300

Key features

Richmond’s range of 6 wheel stock platform trolleys are perfect for transporting stock around a busy store, produce market, factory or warehouse. These galvanised platform trolleys feature an innovative 6 wheel rocking design that keeps the centre wheel grounded at all times allowing for full 360 degree movement around tight spaces.

Each trolley is made from tough, galvanised steel and is fitted with 200mm rigid (fixed centre) castors and 125mm swivel outer castors. This range has a load capacity of up to 500kg and includes many versatile options including single or twin platform trolleys with single or double handles.
