

Plastic Storage

## Red 340L Straight Rotationally Moulded Plastic Tub

Model Number: RTR042

### Key features

A multi-purpose solution for moving food items, general rubbish, linens, and more. Moulded from food grade polyethylene this high strength, high capacity tub is perfect for storing items in commercial laundries, hospitals, aged care centres, hotels, warehouses, and for use in food preparation and storage. With a smooth, easy to clean surface, these 340L tubs are also perfect for handling and storing liquids.

This tub has straight sides, allowing for the even distribution of the goods.

Rim Dimensions: 990 x 690mm

Base Dimensions: 880 x 580mm

Height: 670mm

Material: Food Grade Polyethylene

Volume: 340L

Lid to Suit: RTR051

A range of colour options mean that you can create your own colour coded storage system or choose a colour to match your organisations colour coding.

- Made from tough food grade polyethylene
- Large 340L capacity
- Straight sides
- Smooth surface, easy to clean and sanitise
- Sizes ranging from 150 – 650L capacity available
- Available in blue, red, black, and natural (white)
- Optional castors to suit available, allowing you to easily move a high volume of food, liquids, waste, laundry, and more
- Spring loaded bases available to reduce bending and back strain

Rotationally moulded plastic tubs are made by filling a cast with material and rotated around two axes during the setting process to evenly disperse the heat softened plastic throughout the mould.

A range of castors can be added to this tub as an optional accessory, transforming this high capacity tub, into a versatile high capacity trolley, making it incredibly easy to move large amounts of food, towels, general rubbish, liquids, and more.

Note: With all rotational moulded items there is varied shrinkage during manufacture of up to 3%.
