

Material Handling Equipment / Lift Tables

## 350kg Table Lifter Double Scissor

Model Number: SLR012

### Key features

A dual scissor mechanism operated by hydraulic foot pump allows for safe, stable load lowering and raising. They are recommended to reduce incidents of overreaching and unsafe lifting. Richmond's Double Scissor Lift Tables are the solution for workshops, installers and maintenance applications. Easily positioned and correctly adjusted to a suitable height for the task at hand, table lifters lend themselves to being easily adapted to a multitude of uses.

- 350 kg lifting capacity: Ideal for medium-duty lifting tasks in industrial and workshop environments.
- Double scissor design: Increases lifting stability and capacity for larger, heavier loads.
- Foot pedal hydraulic lift: Provides smooth and controlled lifting without the need for external power.

- Manual release lever: Allows for controlled, safe lowering of the platform.
- Fitted with Richmond swivel castors: Ensures easy movement and transport.
- Dual brakes on rear castors: Offers added stability and safety during lifting and when stationary.
- Powder-coated steel construction: Ensures durability and resistance to wear in demanding environments.

### Specifications

|                        |           |
|------------------------|-----------|
| Product Code           | SLR012    |
| Safe Working Load (kg) | 350       |
| Table Size (mm)        | 915 x 500 |
| Min Table Height (mm)  | 355       |
| Max Table Height (mm)  | 1300      |
| Handle Height (mm)     | 975       |
