

McNeilus

SPECIFICATION

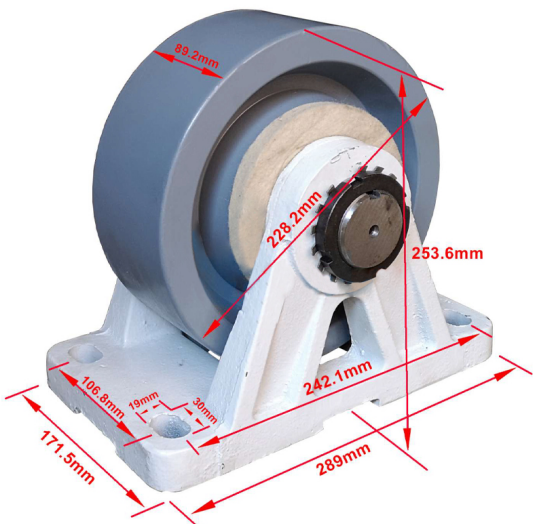

- McNeilus 3-7/8" complete roller assembly
- Casting bracket
- Bracket material: ductile iron GB QT500
- Roller forging
- Roller material: C45
- Roller surface heat treated
- Roller surface hardness 50-55HRC, depth 7-8mm
- Bearing No.455/453A
- Oil seal material: steel / NBR rubber

London Smith

SPECIFICATION

- London Smith roller assembly
- Casting bracket
- Bracket material: ductile iron GB QT500
- Roller forging
- Roller material: C45
- Roller surface heat treated
- Roller surface hardness 50-55HRC, depth 7-8mm
- Bearing No.39590/39520
- Oil seal material: steel / NBR rubber

Challenge

SPECIFICATION

- Challenge roller assembly
- Casting bracket
- Bracket material: ductile iron GB QT500
- Roller forging
- Roller material: C45
- Roller surface heat treated
- Roller surface hardness 50-55HRC, depth 7-8mm
- Bearing No.3975/3920
- Oil seal material: steel / NBR rubber
