

Casters / Forged Head

200mm SG Iron Wheel 1500Kg Capacity Castor

Model Number: S8000D

Key features

The S8000D wheel is fitted with ball bearings. This castors swivel frame allows for full 360° swivel rotation. The outside diameter of the SG Iron wheel is 200mm, the wheel width is 75mm and can be ordered separately (SG822). This model can also be ordered without the direction lock (part number S8000).

This castor includes a directional lock - This feature locks the swivel direction of the castor but still allows the wheel to turn. When the directional lock is released, full swivel function is returned to the castor. Castors with a directional lock are indicated by a 'D' at the end of the castor code.

Specifications
