

Plastic Storage / Bins / Wheelie Bins / 240L

240L Capacity Yellow Wheelie Bin

Model Number: WGR032

Key features

Large 240L yellow wheelie bin for mixed recycling, recyclable waste and site-specific waste separation in residential, commercial and light industrial environments.

- AS4123-2024 compliant: Meets relevant Australian Standard requirements for mobile waste and recycling containers, supporting safe handling, consistent identification and use with suitable collection systems.
- Large 240L capacity: Suitable for higher-volume mixed recycling, recyclable waste and site-specific collection in households, apartment complexes, schools, commercial sites and light industrial areas.

- Yellow waste stream identification: Commonly used for mixed recycling, commingled recycling or site-specific recyclable waste streams when matched with correct signage and collection procedures.
- Weather-resistant HDPE construction: UV-stabilised high-density polyethylene helps resist fading, cracking, brittleness, heat, frost, decay and common chemicals during indoor or outdoor use.
- Reliable mobility: Fitted with two 200mm solid rubber wheels for smooth movement across concrete, paved surfaces, service areas and uneven ground.
- Compatible lifting design: Includes a reinforced lift bar for use with compatible council-style and commercial waste collection lifters.
- Custom hot stamping available: Add logos, waste stream labels, asset numbers or site identification to support ownership, sorting and bin tracking.
- 10 year manufacturer warranty: Backed by a 10 year manufacturer warranty for added confidence in long-term commercial use, conditions apply.

Specifications

Product Code	WGR032
Capacity (L)	240
Colour	Yellow
Material	HDPE
Material	HDPE
Barcode / GTIN	9.33124E+12
Wheel Diameter (mm)	200
Weight (kg)	11
