

Casters / Forged Head

## 250mm SG Iron Wheel 1500Kg Capacity Castor

Model Number: S1032D

### Key features

The S1032D from Richmond is a swivel frame castor and features a SG iron wheel. This swivel castor is in our forged head series range and can safely take loads up to 1500kg. The S1032D wheel is fitted with ball bearings. The swivel frame of this castor allows for full 360° swivel rotation. The diameter of the wheel is 250mm, the wheel width is 75mm and can be ordered separately (SG1027). To order this castor without the directional lock, search for S1032. This castor includes a directional lock - This feature locks the swivel direction of the castor but still allows the wheel to turn. When the directional lock is released, full swivel function is returned to the castor. Castors with a directional lock are indicated by a 'D' at the end of the castor code.

### Specifications

|                            |                              |
