

Wheels / Single Flange & Double Flange Track Wheels

3m Bolt Down Sliding Gate Track - Galvanised

Model Number: GTR010

Key features

Galvanised sliding gate track to suit Richmond's range of sliding gate track wheels. There are many benefits to using bolt down track instead of the concrete in alternative. Besides the ease of installation on existing concrete driveways, it is a simple process to replace a section of the track if damage was to occur in future.
