

Wheels / Concrete Agitator Rollers

London Smith Complete Roller Assembly - Heat-Treated C45 Steel Roller | Ductile Iron Bracket | 39590/39520 Bearing

Key features

Heavy-duty replacement roller assembly designed for London Smith refuse truck applications.

- Complete London Smith roller assembly
- Forged C45 steel roller for superior strength and durability
- Heat-treated roller surface for increased wear resistance
- Surface hardness of 50-55 HRC
- Hardened wear depth of 7-8 mm
- Heavy-duty GB QT500 ductile iron bracket
- Precision 39590/39520 tapered roller bearings
- Steel-backed NBR rubber oil seals help protect against dirt and moisture

- Designed for demanding refuse truck and compactor applications
- Complete pre-assembled unit for simplified installation

Specifications

Roller Material	Heat-Treated Forged C45 Steel
Surface Hardness	50–55 HRC
Hardened Depth	7-8mm
Bracket Material	Ductile Iron (GB QT500)
Bearing	39590/39520 Tapered Roller Bearing
Oil Seal Material	Steel / NBR Rubber
Base Length (mm)	230
Base Width (mm)	189
Mounting Base Length (mm)	187
Mounting Hole Spacing (mm)	141
Overall Height (mm)	254.5
Roller Diameter (mm)	203
Roller Width (mm)	112
